Penang is the very best choice of a beautiful, tropical island:
a perfect alternative to any place you can think of,
or name. Penang IS PARADISE!

The Author: Jim Cortlandt

Jim is a young and recently retired Surgeon from Japan. He is a bundle of positive energy and original thinking. We can share this unique quality he has, and much more with him on our mystical, yet most informative tour of Penang.

He is also a professional photographer and shows a selection from over 1000 startlingly crisp and clear photographs of Penang in this eBook.

He uses only the latest professional cameras, lenses and reproduction equipment, in order to give us a breathtaking view of Penang and the people who live, work and holiday in this idyllic paradise : the Island of Penang in Malaysia.

The captions and headings have been carefully written by Jim to give us the greatest information in the fewest and most simple words.

Jim has interviewed, eaten, travelled and enjoyed Penang:
he wants you to share his experiences in this book:
to be transported by him into another world of beauty and friendship.

Everything from where to eat to where to get your teeth shiny white
can be found in Jim's Guide to Penang.

He also quotes the latest prices and charges for everything
from the finest school to the best condo.,
from the best Doctor the the most reliable Chemist.

Have a look inside but be prepared to use your sunglasses with this book:
at times you think you're on the blue sea, in the clear sky, looking down
from a great height, or just relaxing
in the still cool of a summers evening. YOU'RE THERE!

It has been justifiably said that each of Jim's many photographs could
adorn the walls of a home and make it a more pleasing place to be.
